Program Analyst
Child and Adolescent Health

Over the next hour...

- Who is AMCHP? What is Title V?
....and why you should care
- How AMCHP supports developmental screening efforts
- Q & A
- Seek and find activity
- What's next?
- Session evaluations

Learning Objectives

1. Identify opportunities for cross-system collaboration between Title V & Head Start to support access to comprehensive early childhood services.
2. Introduce and apply tools and resources to align early childhood program activities and action plans.
3. Understand the role of developmental screening within a comprehensive system of services necessary for optimal early childhood development outcomes.

Learning Objectives

1. Identify opportunities for cross-system collaboration between Title V & Head Start to support access to comprehensive early childhood services.
2. Introduce and apply tools and resources to align early childhood program activities and action plans.
3. Understand the role of developmental screening within a comprehensive system of services necessary for optimal early childhood development outcomes.

Learning Objectives

1. Identify opportunities for cross-system collaboration between Title V & Head Start to support access to comprehensive early childhood services.
2. Introduce and apply tools and resources to align early childhood program activities and action plans.
3. Understand the role of developmental screening within a comprehensive system of services necessary for optimal early childhood development outcomes.

Who is AMCHP?

- **Vision:** A nation that values and invests in the health and wellbeing of all women, children, families, and communities.
- **Mission:** Protect and promote the optimal health of women, children, and families.
- **Members:** Leaders/staff from state/territory health agencies and their partners who implement programs to improve the health of women, children, and families.
- **Context:** Title V MCH Services Block Grant (and beyond...)

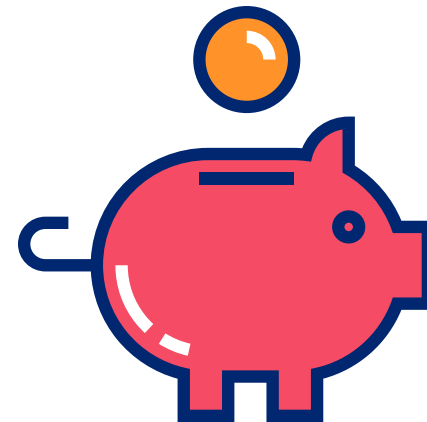

What is Title V?

The nation's longest standing public health legislation focused solely on improving the health of all mothers and children, including children with special health care needs (*CSHCN*)

Appropriates funds to states to:

- Ensure access to **quality health services**
- Promote the health of children by providing **preventive and primary care services**
- Provide and **promote family-centered, community-based, coordinated care** for children with special health care needs

Title V MCH Services Block Grants

Every 5 years, states conduct a needs assessment to prioritize MCH needs

Each year, states submit a block grant application outlining their strategic priorities for the year

With each block grant application, states select 5 National Performance Measures (out of 15), 3-5 state priority measures, and one or more state outcome measures

National Performance Measure 6

Percent of children, ages 10 through 71 months, receiving a developmental screening using a parent-completed screening tool

So, why does this matter to Head Start?

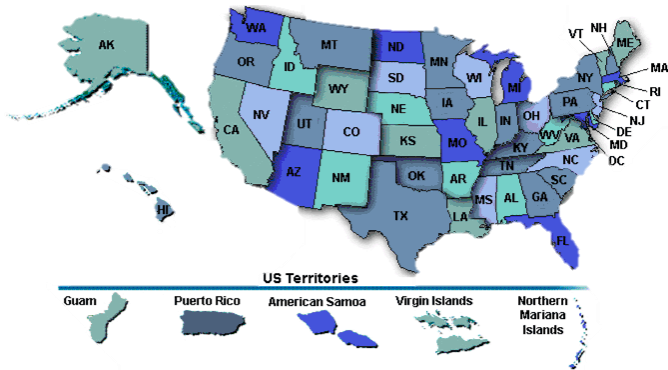

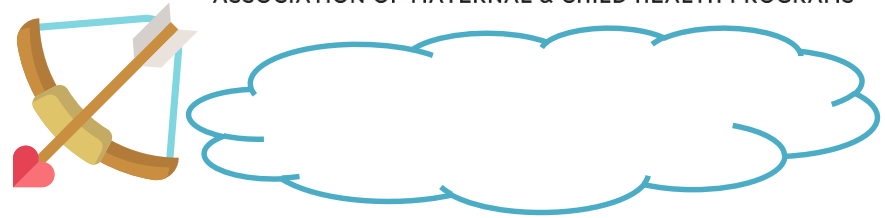

Head Start Program Performance Standards

§1302.33: Child Screenings and Assessments

“... a program must complete or obtain a current developmental screening to identify concerns regarding a child’s developmental, behavioral, motor, language, social, cognitive, and emotional skills within 45 calendar days of when the child first attends the program...”

ASSOCIATION OF MATERNAL & CHILD HEALTH PROGRAMS

Title V MCH Programs

How does AMCHP provide support to states in addressing NPM 6?

1. Training

Training

Resources

eLearning

Publications

AMCHP's eLearning Module

- **Identify** the purpose of developmental screening
- **Understand** the impact screening has on families and children
- **Recognize** the roadblocks and challenges of the screening process
- **Ascertain** the role of Title V in developmental screening and communicate its value
- **Identify** additional resources to assist in communicating value

How does AMCHP provide support to states in addressing NPM 6?

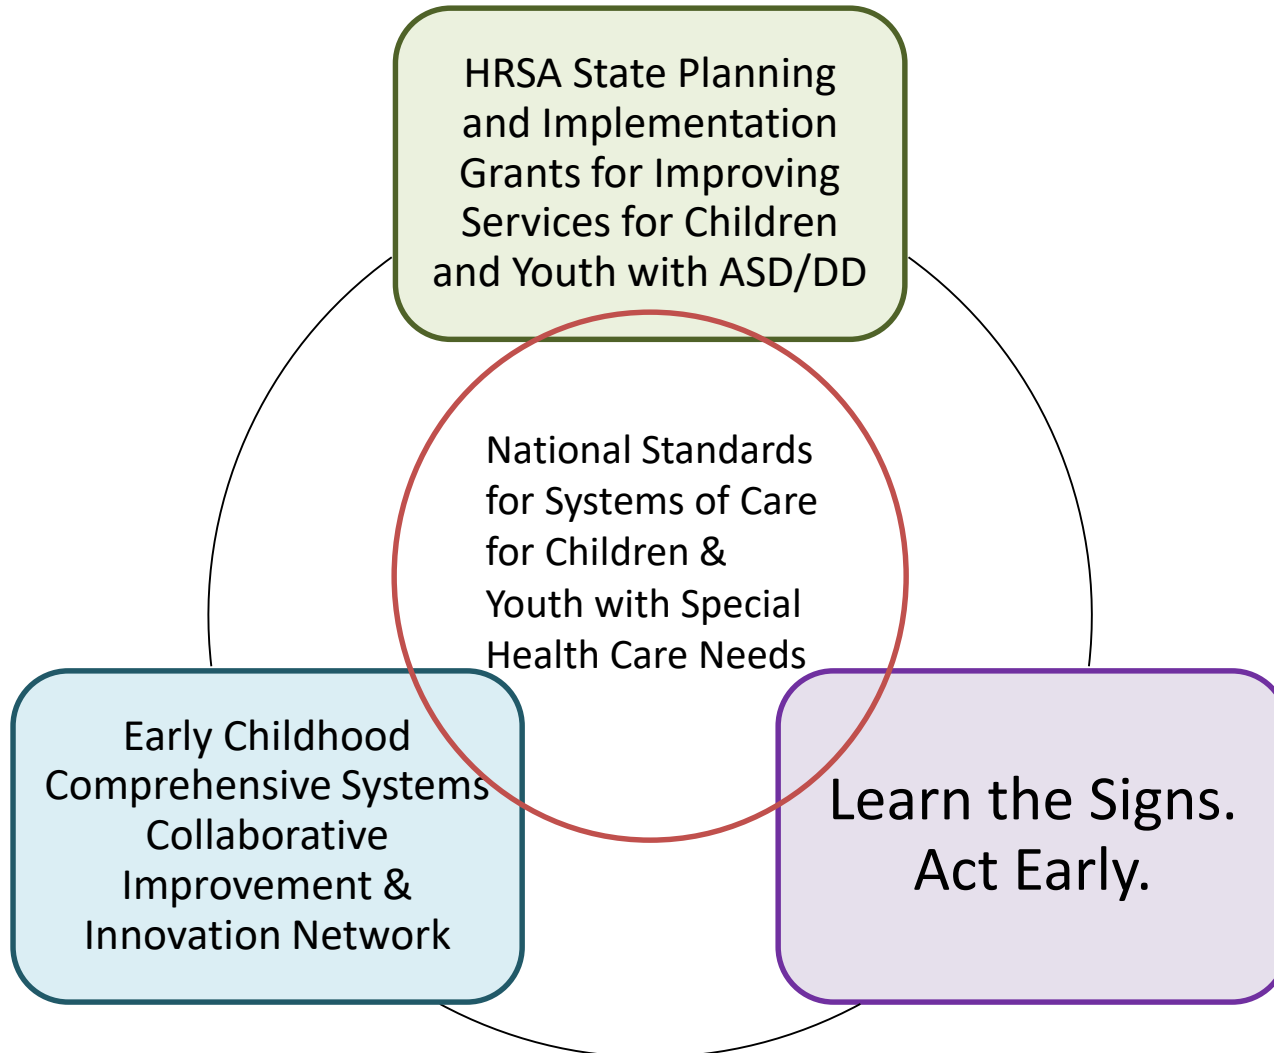

1. Training

2. Systems Coordination

Systems Coordination

How does AMCHP provide support to states in addressing NPM 6?

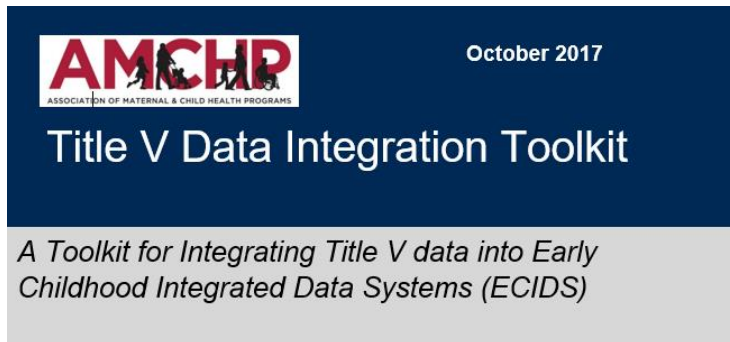

1. Training

2. Systems Coordination

3. Data Integration

Data Integration

- Tip sheets
- Use cases
 - Autism
 - Community-based services
 - Developmental Screening
- State examples
 - Kentucky
 - North Carolina
 - Rhode Island

What questions, insights, or comments do you have?

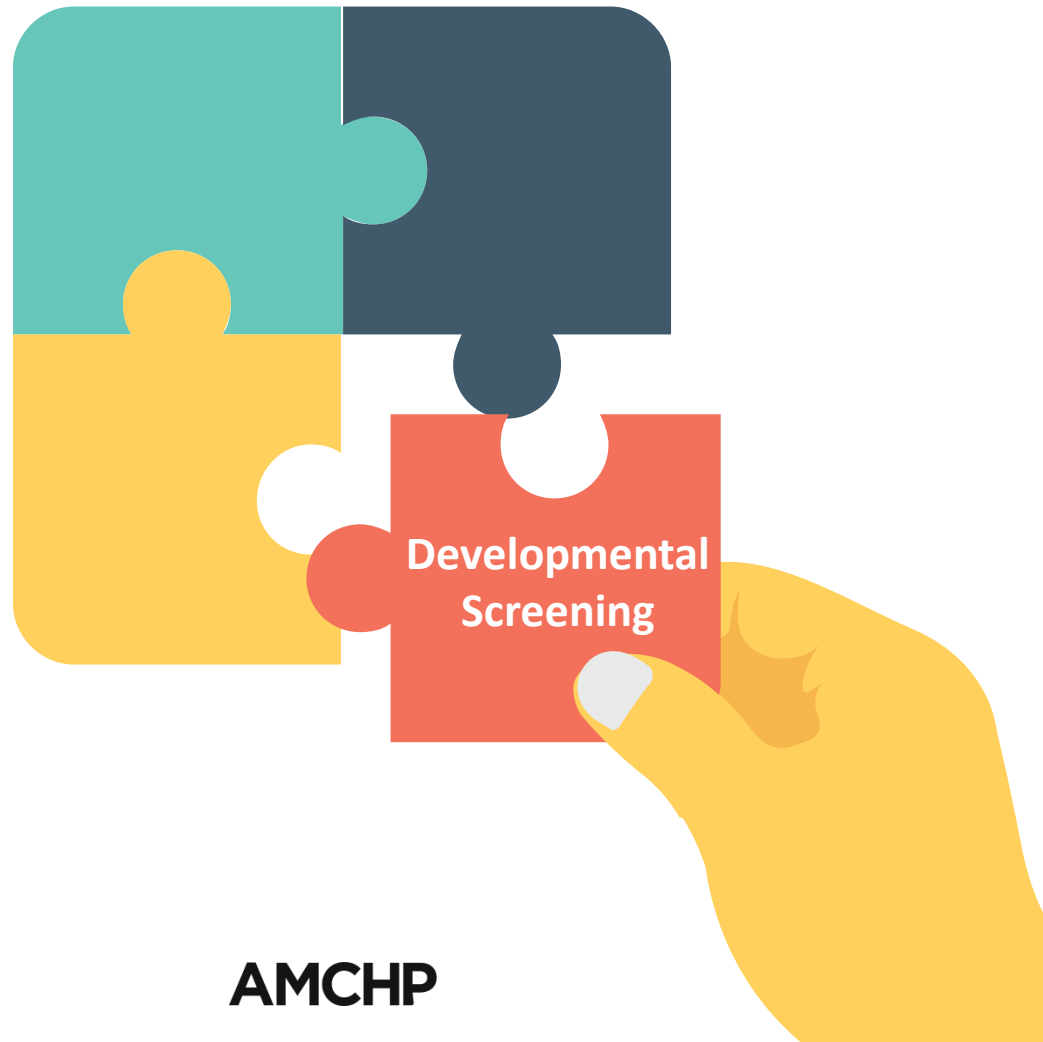

Let's play...seek and find!

A Final Parting Note

Early Childhood Comprehensive System

What's Next?

Advance your great work by connecting with your colleagues in other states and jurisdictions to learn from each other!

Thank you!

Please take a moment to fill out the session evaluation. We take your input seriously!
