

This has been my best internship out of the multiple I've done for my program. AMCHP staff did a fantastic job of organizing this program.

GREAT GREAT experience!!!!!! The GSEP/AMCHP staff was great and I really appreciated the support.

I love that the curriculum highlighted various cultures, ethnicities, genders etc. We didn't avoid any challenging topics. I learned a lot and appreciate the effort to be inclusive.

GSEP has perfected the art of communication in the virtual world. If I was still confused about something or needed assistance, the AMCHP staff made sure they were available to help me

This was a fantastic virtual experience. The remote work environment offered a wonderful work-life balance. I was able to complete both my initial project and an additional project.

The virtual platform worked well because I could easily connect with people from all over the U.S. instead of only those in my area.

“

I knew taking a racialized lens to the MCH work was important, but rarely did I see others doing the same or felt truly supported in doing so. GSEP reinforced for me that the curriculum I created for myself and the perspective that I was taking in my work was important, needed, and legitimate. This experience showed me that I have the tools and knowledge I need to be successful in this field and has boosted my confidence in my expertise.

I got to work with various populations throughout this process and learn the differences in both their needs and their wants while also finding a common thread which tied everyone together.

The virtual format of the internship really allowed me to do the work in a way that was affordable and feasible to my current circumstances. Because I wasn't working out of an office, I was able to work in a way that suited my regular schedule, and was able to focus much more on the project deliverables than the logistics of getting to-and-from the office.
