

Illinois

Maternal and Child Health Block Grant 2023

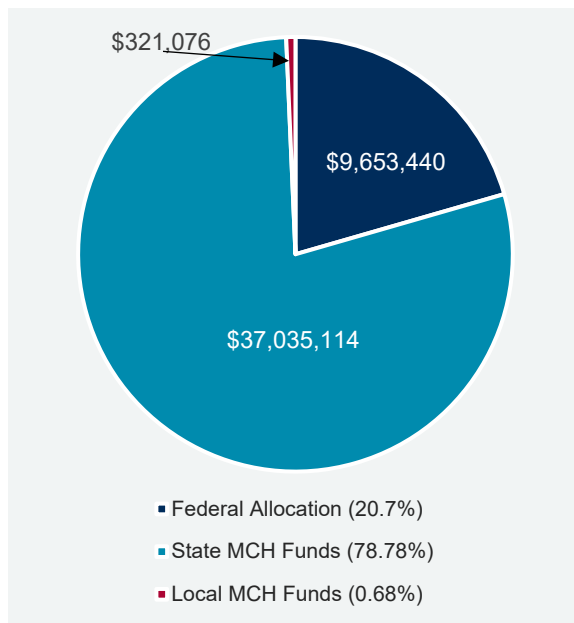

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2021, 92% of all pregnant women, 98% of infants, and 58% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

1.6%	Others

*2021 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlight: Maternal Mortality

In January 2021, Illinois released its second report of the findings and recommendations from the state's Maternal Mortality Review Committees, which included data on the causes and disparities in Illinois' Maternal Mortality rate and recommendations to improve maternal outcomes at the hospital, provider, State-Agency, and family levels. In addition, the state is participating in and collaborating with key stakeholders to address maternal mortality. More specifically, the state is collaborating with a Task Force in Infant and Maternal Mortality Among African Americans (IMMT), as well as the Illinois Maternal Health Task Force established through the I PROMOTE-IL program (HRSA Maternal Health Innovation Grant) that is translating and building on findings and implementing recommendations from the Illinois Maternal Mortality Review Committees.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.

Awareness and Access to Care for Children and Youth with Epilepsy

American Academy of Pediatrics, Itasca, IL (IL-8)
