

Michigan

Maternal and Child Health Block Grant 2023

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2021, 92% of all pregnant women, 98% of infants, and 58% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

MCH Block Grant Funds to Michigan

- 72.0%** Children and adolescents
- 72.0%** Children with special health care needs
- 5.0%** Others

*2021 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlights: Local Maternal Child Health (LMCH)

Approximately one-third of Title V funding supports the MCH work of all 45 local health departments (LHDs) in Michigan. The focus of local programming is to provide the MCH population with increased access to and provision of gap-filling services; enabling services such as case management and epidemiologic support; public health services and systems; and interventions to address community-specific MCH needs. LHDs use Title V funding to address state and national priorities as well as locally identified needs.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.

Awareness and Access to Care for Children and Youth with Epilepsy
