

New York

Maternal and Child Health Block Grant 2023

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2021, 92% of all pregnant women, 98% of infants, and 58% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

*2021 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlight: Child and Adolescent Health

NY's commitment to ensuring all children and adolescents have access to health care services is longstanding. NY subsidizes Medicaid coverage for children in families with incomes up to 400 percent of the FPL. NY continues to operate one of the largest School-Based Health Center (SBHC) Programs in the nation with 46 hospitals and health centers operating 251 medical clinics and 43 hospitals and health centers operating 2,401 dental clinics within schools across the state. NY is committed to ensuring oral health is an integral part of health care, including serving children in SBHC programs. NY's comprehensive adolescent pregnancy prevention initiative focuses on implementation of evidence-based sexual health education and reducing racial and ethnic disparities. NY has a rich history of providing reproductive health services to NY's most vulnerable population through 37 Family Planning programs operating 164 clinics that provide free or low-cost FP and reproductive health care services to nearly 30,000 teens.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.
