Which area of epidemiology interests you most? *

▼

Areas of epidemiology

Needs Assessment: The collection and analysis of information that relates to the needs of affected populations and that will help determine gaps between desired outcomes and current measured outcomes.

Data analysis: This includes survey/surveillance design, data collection, data cleaning, statistical coding, analyses, and interpretation of results.

Program Monitoring and Evaluation: This focuses on operationalization progress and outcome indicators, creating and maintaining data collection systems, and creating summaries and reports on program strategy and results.

Why did you select this area as your top interest? *

Indicate your level of proficiency with this area of epidemiology. *

- I have no coursework or practical experience in this area.
- I have coursework but do not yet have practical experience in this area.
- I have practical experience but do not yet have coursework in this area.
- I have both coursework and practical experience in this area.

Which area of epidemiology interests you the second most? Please select a different option than you did for the previous question. *

Why did you select this area as your second interest? *

Indicate your level of proficiency with this area of epidemiology. *

- I have no coursework or practical experience in this area.
- I have coursework but do not yet have practical experience in this area.
- I have practical experience but do not yet have coursework in this area.
- I have both coursework and practical experience in this area.

- Cross-Cutting/Systems Building
- Other (please specify)

Other area

What do you hope to learn or experience as a GSEP intern? How will this help you in your career? Please be thorough but concise (300-word limit). *

What strengths and relevant skills (certifications, specialized training, etc.) will you bring to your internship that would be helpful for a prospective host site supervisor/mentor to know about? (300-word limit) *

What skill sets, statistical packages (e.g., SAS, R, Excel, etc.), and/or qualitative analysis software do you currently have experience with? *

What skill sets, statistical packages (e.g., SAS, R, Excel, etc.), and/or qualitative analysis software are you interested in learning or mastering? *

If I am selected as a GSEP intern and confirm my participation, I agree to commit to 40 hours of work (35 with my matched host site and 5 with AMCHP) per week for the full 10-week internship period. Barring unforeseen circumstances, I will honor this commitment along with any other educational, work, personal, etc. ones I may have.

*

- I agree.
- I do not agree.
