

Arkansas

Maternal and Child Health Block Grant 2024

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

69.6%	Children and adolescents
69.6%	Children with special health care needs
4.6%	Others

*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlight: Family Education

Family-centered resources are made available to parents on the Title V agencies' websites. The Parent Advisory Council's (PAC) outreach to families through family focus groups, surveys, and participation in the Statewide needs assessment ensures families' voices are heard. The PAC continues their long-standing tradition of parent support, training, and education through the Annual Famous Family Bistro Conference which brings together parents, providers, vendors, and self-advocates.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.
