

# California

## Maternal and Child Health Block Grant 2024

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit [www.amchp.org](http://www.amchp.org).

### MCH Block Grant Funds to California

FY 2020	<b>\$39,383,025</b>
FY 2021	<b>\$35,244,813</b>
FY 2022	<b>\$39,637,360</b>

\*States must provide a \$3 match for every four Federal dollars allocated.

### California Expenditures Funding by Source in FY 2022

### Percentage Served by the California MCH Program\*

**100.0%** Children and adolescents

**13.5%** Children with special health care needs

**20.7%** Others

\*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

## State spotlight: California Innovations in Services and Partnerships for Inclusion, Resilience, and Empowerment (Cal-InSPIRE)

The California Department of Public Health – Maternal, Child and Adolescent Health (MCAH) Division created a new program in 2022, [California Innovations in Services and Partnerships for Inclusion, Resilience, and Empowerment \(Cal-InSPIRE\)](#). Five local public health departments were selected to develop and implement innovative approaches focused on children and youth with special health care needs and their families. The program aims to establish best practices and successful strategies that can be adapted by other local MCAH programs around the state and nationally. These public health interventions look beyond the child's medical needs and address the broader needs of the child and their family, create systems-level change, and focus on a strengths-based, connection-building approach.

## Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care.
