

Georgia

Maternal and Child Health Block Grant 2024

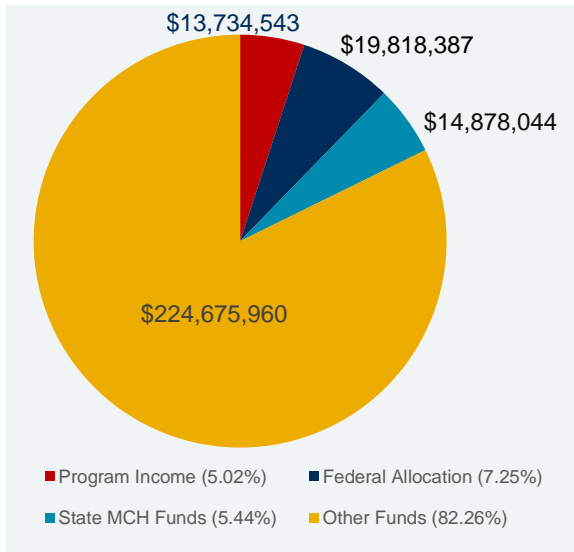

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

- 64.0%** Children and adolescents
- 15.0%** Children with special health care needs

*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlights: Georgia's Maternal Mortality Review Committee

Georgia's Maternal Mortality Review Committee (MMRC) has made significant efforts to conduct a thorough and timely review of all pregnancy-associated deaths. Georgia has been a leader in conducting key informant interviews as a part of the maternal death review process. A Licensed Clinical Social Worker conducts culturally sensitive interviews with family and other close contacts of the decedent to learn contextual information surrounding the death and identify social determinants of health. The interview information is woven into the case narrative to create a comprehensive narrative that captures the decedent's story and experiences. Based on the collective reviews, the MMRC provides recommendations for preventing maternal deaths in the future. The MMRC collaborates with the Georgia Perinatal Quality Collaborative and Maternal Health ECHO, among other partners, to implement AIM bundles, provide education, and implement committee recommendations.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.
