

# Maryland

## Maternal and Child Health Block Grant 2024

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit [www.amchp.org](http://www.amchp.org).

### MCH Block Grant Funds to Maryland

FY 2020	<b>\$11,850,506</b>
FY 2021	<b>\$11,872,645</b>

<b>100.0%</b>	Children with special health care needs
<b>40.0%</b>	Others

\*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

## State spotlight: Pregnant Individuals, Mothers, and Infants

The goal of the Maternal and Perinatal Health Program is to prevent maternal and infant deaths and other adverse perinatal outcomes by promoting preconception health, assuring early entry into prenatal care, and improving perinatal care. In collaboration with local health departments, hospitals, private providers, professional organizations, and community groups, the program supports infant mortality review activities in every jurisdiction and promotes access to quality services for all pregnant women and infants. The Babies Born Healthy Initiative supports enhanced care coordination in the most impacted jurisdictions. The Statewide Integrated Health Improvement Strategy focuses on improving maternal and infant health using the state's financial healthcare system model.

## Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.
