

Michigan

Maternal and Child Health Block Grant 2024

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

100.0%	Children and adolescents
100.0%	Children with special health care needs
7.0%	Others

*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlights: Michigan Regional Perinatal Quality Collaboratives

The strategic vision of Michigan's *Advancing Healthy Births: An Equity Plan for Michigan Families & Communities* is Zero preventable deaths and Zero health disparities. Michigan's nine regional Perinatal Quality Collaboratives (PQCs) are key partners in this work. The PQCs consist of clinicians, community partners, and families and are tasked to make data-informed decisions and use quality improvement methodology to improve birth outcomes and address health inequities in their respective regions. Title V funds are used as gap-filling funds for PQC efforts, such as implicit bias training for providers and perinatal substance use initiatives.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.
