

Nebraska

Maternal and Child Health Block Grant 2024

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

5.0%	Others

*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlight: Partnerships with Nebraska Tribes

Since 2003, Nebraska Department of Health and Human Services has had a unique MCH Block Grant subaward process with Nebraska Tribes. In recognition of Tribal sovereignty and respect for our special government-to-government relationship, two important features of the MCH Tribal set-aside are: 1) non-competition, i.e. the four federally-recognized Tribes headquartered in Nebraska are the only eligible applicants of the set-aside; and 2) Tribal leaders are invited to identify the method of their choosing to fairly split the set-aside between the four Tribes. The Omaha, Ponca, Santee Sioux Nation, and Winnebago Tribes identify their MCH needs, which are often among Nebraska's state priorities, and the strategies that fit their community and cultural practices.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.
