Maternal and Child Health Block Grant 2024

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit www.amchp.org.

100.0%	Infants under one
16.0%	Children and adolescents
42.8%	Children with special health care needs
0.5%	Others

*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

State spotlight: Health Emergency Ready Oregon (HERO) Kids Registry

Oregon's Title V Center for Children and Youth with Special Health Needs launched HERO Kids Registry, in partnership with the state's Emergency Medical Services for Children program and Family-to-Family Health Information Center. HERO Kids Registry is a voluntary, no-cost system that lets families and young adults record critical health details that first responders and hospital emergency departments can access quickly in an emergency. Accessing the registry takes less than 90 seconds. For emergency medical providers faced with split-second decisions, HERO Kids Registry fills crucial information gaps.

HERO Kids Registry was developed with input from families of children with special health needs, young adults with special health needs, public health, first responders, pediatric health care providers, and hospital emergency departments. Families registering their children (or young adults registering themselves) choose which information to share. The registry is available statewide.

Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.
