## Maternal and Child Health Block Grant 2024

The Maternal and Child Health Services Block Grant, Title V of the Social Security Act, is the only federal program devoted to improving the health of all women, children, and families. In Fiscal Year 2022, 93% of all pregnant women, 99% of infants, and 61% of children nationwide benefitted from a Title V-supported service. To learn more about Title V, visit [www.amchp.org](http://www.amchp.org).

100.0% Infants under one

2.7% Children and adolescents

3.7% Children with special health care needs

1.1% Others

\*2022 State/Jurisdiction Annual Reports Submitted to the Maternal and Child Health Bureau

## State spotlight: Women and Infant Health Program

The Women and Infant Health Program reviews maternal deaths as part of a cross-state Maternal Mortality Review Committee (MMRC). The purpose of these reviews is to come up with recommendations that would have possibly prevented the maternal death. The program also funds and coordinates the Wyoming Perinatal Quality Collaborative (WyPQC). The WyPQC has begun selecting initiatives based on the recommendations from the MMRC, which may include improving access to mental health and substance use disorder care for pregnant and postpartum women. The WyPQC holds quarterly meetings focusing on topics pertaining to access to care and improving standards of care for women and infants in Wyoming.

## Current Special Projects of Regional and National Significance (SPRANS)

Special Projects of Regional and National Significance (SPRANS) funding complements the formula funding each state receives and helps ensure the success of state Title V, Medicaid, and CHIP programs by driving innovation, responding to emerging and entrenched issues, and building capacity for integrated systems of care for women, children, and families.

### State Systems Development Initiative

Wyoming Department of Health, Cheyenne, WY (*WY-At Large*)

### State Maternal Health Innovation Program

University of Wyoming, Laramie, WY (*WY-At Large*)
