

Innovation Hub Learning Community

Overview

The Innovation Hub Learning Community (IHLC) offers programmatic support to all practices in the MCH Innovations Database through one-on-one tailored coaching, didactic webinars, and peer sharing opportunities. The IHLC aims to:

Provide a responsive and proactive network of programmatic support for all participants

Facilitate spaces for peer-sharing in which participants can co-create solutions and share programmatic successes and challenges

Offer learning opportunities that boost participant confidence applying evaluation and implementation principles and tools

Encourage and support Innovation Hub practices to resubmit their work to the MCH Innovations Database and move up the Practice Continuum

IHLC Activities

Quarterly Webinars on topics related to strengthening practice implementation and evaluation activities.

IHLC Collaborative Circle to discuss programmatic challenges, successes, and learn from the experiences of other IHLC members.

Customized Coaching guidance from AMCHP staff to discern and accomplish your practice goals to move up the Practice Continuum.
